# Package 'ROI.plugin.qpoases'

July 7, 2023

Version 1.0-3
Title 'qpOASES' Plugin for the 'R' Optimization Infrastructure
<b>Description</b> Enhances the 'R' Optimization Infrastructure ('ROI') package with the quadratic solver 'qpOASES'. More information about 'qpOASES' can be found at <a href="https://github.com/coin-or/qpOASES">https://github.com/coin-or/qpOASES</a> .
Imports methods, slam, ROI (>= 1.0-0), Rcpp (>= 0.12.11), checkmate
License GPL-3
LinkingTo Rcpp

2 Example-1

ROI.plugin.qpoases-package qpOASES

#### Description

This package provides an interface to qpOASES. pOASES is an open-source C++ implementation of the online active set strategy, which was inspired by important observations from the field of parametric quadratic programming (QP).
