# Package 'r2fireworks'

January 16, 2024

Type Package	
<b>Title</b> Enhance Your 'Rmarkdown' and 'shiny' Apps with Dazzling Fireworks Celebrations	
Version 0.1.0	
Maintainer Obinna Obianom <idonshayo@gmail.com></idonshayo@gmail.com>	
<b>Description</b> Implementation of 'JQuery' <a href="https://jquery.com">https://jquery.com</a> and 'CSS' styles to allow the display of fireworks on a document. Toolkit to easily incorporate celebratory splashes in 'Rmarkdown' and 'shiny' apps.	
License MIT + file LICENSE	
<pre>URL https://r2fireworks.obi.obianom.com/</pre>	
BugReports https://github.com/oobianom/r2fireworks/issues	
<b>Depends</b> R (> 3.6)	
Imports utils, htmltools, shiny	
Suggests rmarkdown, knitr	
Encoding UTF-8	
VignetteBuilder knitr	
Language en-US	
LazyData false	
RoxygenNote 7.2.3	
NeedsCompilation no	
Author Obinna Obianom [aut, cre]	
Repository CRAN	
<b>Date/Publication</b> 2024-01-16 17:50:02 UTC

2 fireworkMessenger

fireworkMessenger

Widget to initiate or terminate fireworks display

#### Description

Add or remove fireworks graphics from page Add fireworks visuals to page Remove fireworks visuals from page Add fireworks visuals to Rmarkdown page

# Usage

```
fireworkMessenger(
   type,
   duration = NULL,
   speed = NULL,
   particleCount = 30,
   session = getDefaultReactiveDomain()
)

showFireworks(
   speed = 1,
   particleCount = 40,
   session = getDefaultReactiveDomain()
)

removeFireworks(session = getDefaultReactiveDomain())

addRmdFireworks(speed = 1, particleCount = 40)
```

#### **Arguments**

type type of action e.g start, remove duration duration of fireworks outbursts speed speed of display of fireworks particleCount particle size of fireworks session session object from server

#### Value

inclusion or exclusion of fireworks from page visible firework canvas on the page removal of firework canvas from the page addition of firework canvas on the page useFireworks 3

# **Examples**

```
# In R markdown documents
library(r2fireworks)
useFireworks()
addRmdFireworks(particleCount = 100, speed = 3)
```

useFireworks

Set up firework scripts and loader

# **Description**

Calls to load fireworks to a page

# Usage

```
useFireworks()
```

#### Value

scripts to load fireworks and trigger to start fireworks

#### Examples for r2fireworks

More examples and demo pages are located at this link - https://r2fireworks.obi.obianom.com.

# **Examples**

```
# In shiny applications
if(interactive()){
# example 1: simple example with automatic start
library(shiny)
library(r2fireworks)

ui <- fluidPage(
    useFireworks(),
    shiny::tags$h1("Introducing r2fireworks"),
    shiny::tags$p("Celebrate 4th of July and my R package!!!")
)
server <- function(input, output, session) {
    # optional. start fireworks on load
    showFireworks(particleCount = 30)
}
shinyApp(ui, server)</pre>
```

4 useFireworks

```
# example 2: sample with start and stop buttons
library(shiny)
library(r2fireworks)
ui <- fluidPage(
  useFireworks(),
  shiny::tags$h1("Here is the starts"),
  shiny::tags$p("Celebrate 4th of July and my R package!!!"),
  actionButton("startFW","Show and Start Fireworks, with speed x1"),
  actionButton("startFWx4", "Show and Start Fireworks, with speed x4"),
  actionButton("startFWspx4","Show Fireworks, with particle burst size 10000"),
  actionButton("stopFW","Remove Fireworks")
)
server <- function(input, output, session) {</pre>
  observeEvent(input$startFW,{
   showFireworks()
  })
  observeEvent(input$startFWx4,{
    showFireworks(speed = 4,particleCount = 50)
  })
  observeEvent(input$startFWspx4,{
    showFireworks(speed = 1,particleCount = 10000)
  observeEvent(input$stopFW,{
    removeFireworks()
  })
}
}
```

# **Index**

```
addRmdFireworks (fireworkMessenger), 2
fireworkMessenger, 2
removeFireworks (fireworkMessenger), 2
showFireworks (fireworkMessenger), 2
useFireworks, 3
```
