scrollama   *R Markdown output formats for using Scrollama*

Description

Include the Scrollama JS library in the HTML output from R Markdown.

Usage

```
scrollama(...)

scrollama_sidebar(..., template = pkg_resource("html", "scrollama-side.html"))

scrollama_setup(options = list(step = ".section, img, video, embed", offset = 0.5))
```

Arguments

`..., template`	Arguments to be passed to bookdown::[html_document2](){#}().
`options`	A list of initialization options for Scrollama.

Value

`scrollama()` and `scrollama_sidebar()` return R Markdown output formats; `scrollama_setup()` is a helper function to return the JavaScript code for initializing Scrollama.

References

The Scrollama library: https://github.com/russellgoldenberg/scrollama.

Examples

```
rolldown::scrollama_setup(list(step = ".level1", offset = 0.2))
```
