Description

Add beautiful interactive bubbles within Shing and RMarkdown backgrounds

Usage

```
bubbly(theme = "ocean", color = "white")
```

Arguments

theme	Name of the bubbles theme. See the vignette for a list of themes.
color	Text color. Defaults to 'white'

Value

Themed interactive bubbles for Shiny and RMarkdown backgrounds

Examples

```
if (interactive()) {

ui <- fluidPage(

bubbly(theme = "meteor")

)

server <- function(input, output) {}

shinyApp(ui = ui, server = server)

}
```

Index

bubbly,
