Package 'arcgis'

April 25, 2025

Title ArcGIS Location Services Meta-Package

Version 0.2.0

Description Provides easy installation and loading of core ArcGIS
location services packages 'arcgislayers', 'arcgisutils',
'arcgisgeocode', and 'arcgisplaces'. Enabling developers to interact
with spatial data and services from 'ArcGIS Online', 'ArcGIS
Enterprise', and 'ArcGIS Platform'. Learn more about the 'arcgis'
meta-package at <https://developers.arcgis.com/r-bridge/>.

arcgis_packages   *List all arcgis packages*

Description

List all arcgis packages

Usage

```
arcgis_packages(include_self = TRUE)
```

Arguments

include_self   default TRUE. Includes the "arcgis" package name in the resultant character vec-
                 tor.

Value

A character vector of package names included in the "arcgis" meta-package.

Examples

```
arcgis_packages()
```
